

***Instructions for Requesting Transcripts - Health Professions only!***

All applicants to Health Profession programs must submit official transcripts from high school and all colleges attended prior to their program application deadline. You should make sure your VWCC college application is active prior to having transcripts sent. Please **do not** request transcripts from VWCC or any other community college in Virginia. Applicants should make their request(s) as soon as possible to the school/college and instruct them to send your *official* transcript to you. In the event they **will not** issue directly to you, please ask them to send to the **attention** of Pam Woody or Health Professions at our school mailing address to ensure proper delivery.
